

# NATIVE PLANT SALE 2024

For photos and descriptions of plants go to:  
[thorncreekaudubonsociety.org/native-plant-sale](http://thorncreekaudubonsociety.org/native-plant-sale)

Thorn Creek Audubon Society (TCAS) & Homewood Izaak Walton Preserve (HIWP) are again sponsoring a native plant sale. The organizations partner on this project to raise funds for educational projects and to increase native plantings in our area. Profits will be split between TCAS and HIWP.

- Plants have been chosen to thrive in this area and support pollinators/butterflies.
- All are native to Illinois. Plants that are “endangered/threatened” are indicated with asterisk\*.
- They represent a variety of plant types, colors, textures, and bloom times.
- Descriptions of plants included in this year’s sale are on the attached order form page.

As of now, Plant Sale and Pre-order Pick-up is scheduled for:

**Saturday, May 18, 2024**

**Plants will be delivered to Homewood/Flossmoor Customer Homes on Friday, May 17**

**9:00 AM – 12:00 Noon**

**HOMEWOOD IZAAK WALTON PRESERVE**

**1100 RIDGE ROAD**

**HOMEWOOD, IL 60430**

To obtain the plants you want, we highly encourage pre-ordering.

***Pre-orders due March 1, 2024***

*2 Ways to order:*

<p><b>Mail your Order Form and Check</b>  Download and fill out order form. Mail to:  TCAS/Judy Johnson  803 Argyle Avenue  Flossmoor, IL 60422  <i>Make checks payable to: Thorn Creek Audubon</i></p>	<p><b>Order on-line</b>  <a href="http://www.ThornCreekAudubonSociety.org">www.ThornCreekAudubonSociety.org</a>  Scroll to: <i>Native Plant Sale for</i>  Plant Descriptions and  Directions for ordering</p>
---	---

Judy is happy to answer questions regarding the plants or the sale:

E-mail: [TCASPlants@gmail.com](mailto:TCASPlants@gmail.com) Text: 312-307-1808

We have worked closely with **Possibility Place Nursery** to choose plants that can be reliably provided. However, even with careful planning, some plants do not propagate as expected and so are not available at the time of pick-up. Unavailable plants will be substituted with appropriate plants.

*Native plants are much more likely to thrive when placed where conditions support them: For example, do you love **red**? Both the Cardinal Flower and Royal Catchfly produce beautiful red flowers in sun to partial shade, but the Cardinal Flower likes **wet** conditions, whereas the Royal Catchfly likes **dry** conditions.*
